

27th September 2017, Gandhinagar.

Dr. S. K. Varshney, Scientist G/ Advisor (International Bilateral Co-operation from DST visited NIPER-A on the morning of 27th September 2017. He was welcomed at the institute by Prof. Kiran Kalia and faculty members. During this visit, Dr. Varshney delivered a seminar concerning different funding schemes, scholarship plans and sponsorship programmes offered by DST for supporting the research as well as higher education of faculties and the students. His seminar was very informative and displayed the willingness of government to support worthy research for the betterment of our country. During his seminar, he also suggested NIPER-A to initiate establishment of pharmaceutical incubation center. The seminar was concluded with a question and answer session. After his seminar, Shri Varshney toured the campus and interacted with the MS research and Ph.D. students. He was quite contented as well as astonished by the infrastructure/equipment facilities available at NIPER-A.
